SUMMARY

A data-driven SEO Fullstack Specialist with over 1 year of experience and a solid technical foundation in Information Systems (IT). Expert in executing end-to-end SEO strategies, including Technical Audits, On-page/Off-page optimization, and high-converting Content Planning. Proven ability to bridge the gap between technical web development and creative digital marketing to drive organic traffic, improve search rankings, and enhance brand authority.

WORK EXPERIENCE

SEO Website Fullstack Executive | ThanhTiengroup (03/2025 – Present)

- **Strategy Execution:** Develop and implement holistic SEO On-page & Off-page strategies to scale organic traffic and broaden keyword coverage.
- **Technical SEO:** Conduct deep-dive audits into indexing, crawling, and site architecture. Resolve technical errors and optimize Core Web Vitals to improve Search Engine visibility and User Experience.
- **Website Management:** Administer CMS, optimize landing pages, and refine internal linking structures to enhance site authority (E-A-T).
- **Social & Authority Building:** Integrate social media signals to support SEO goals, ensuring content consistency and brand trust across platforms.

Social Media & E-commerce Admin | Nhienvintage (01/2022 – 10/2024)

- **E-commerce SEO:** Optimized product listings and shop visibility on major platforms (Shopee, TikTok Shop, Lazada).
- **Content Production:** Created high-engagement visual and video content for social channels to drive referral traffic.
- **Livestreaming Support:** Coordinated multi-platform livestreams, leveraging real-time engagement to boost brand presence.

EDUCATION

Ho Chi Minh City University of Foreign Studies – Information Technology (07/2020 – 07/2024)

- **Major:** Information Systems.
- **Graduation Thesis:** “Text Data Mining for Web Content Classification” (Developed advanced skills in analyzing content structures and deep-diving into data research).

CORE SKILLS
